# Certificate of compliance

## REACH regulation (EC) No. 1907/2006

Issue: 2011-01 (effective from 01.01.2011)

Concerns: **FOREXclassic – FOREXcolor – FOREXprint – FOREXsmart**

Subject: **Substances of very high concern (SVHC)**

The new chemicals regulation of the European Union (REACH regulation) came into force on June 1, 2007. The objective of the REACH regulation is the **Registration, Evaluation, Authorisation and Restriction of Chemicals** by the European Chemicals Agency (ECHA). The principal aim of REACH is to improve the protection of human health and the environment from the risks that can be posed by chemicals. Airex AG pursues exactly the same objective with one of its corporate principles ("EHS first" - Environment, Health and Safety) and will support customers and suppliers in implementing the REACH regulation.

- This is to confirm that the sheet materials with the product names FOREXclassic, FOREXcolor, FOREXprint and FOREXsmart are produced by Airex AG in Sins / Switzerland.
- In the supply chain of the FOREX range of sheet materials, Airex AG is not a manufacturer of chemical substances on their own but a downstream user who utilises and processes chemical substances and preparations delivered to us.
- Airex AG collaborates closely with its suppliers to ensure that all preliminary products used in the production are in compliance with the REACH regulation. **Airex AG herewith confirms that the sheet materials FOREXclassic, FOREXcolor, FOREXprint and FOREXsmart do not contain any of the 46 substances appearing on the Candidate List of Substances of Very High Concern (SVHC) issued by ECHA on December 15, 2010.**
